

The KWL sheet is used to get a start our career project, listing what you know and what you would like to find out during the career project. Use the “K” and “W” parts to guide you in your research. The “L” part is completed once your work is complete. “L” is for “learned”, so complete that portion describing what you have learned in doing this project. You need to complete a detailed KWL sheet for 3 careers. Print your completed KWL sheets and include them in your career portfolio.

Career Research #1: _____ Name: _____

K—list what you already *know* about the career—this is what you want to verify or prove that you were right in your assumptions about the career

W—list what you *want* to learn about the career—this is what you want to research

L—write about what you *learned* about the career (including what you expected or unexpected)

Career Research #2: _____

Name: _____

K—list what you already know about the career—this is what you want to verify or prove that you were right in your assumptions about the career

W—list what you want to learn about the career—this is what you want to research

L—write about what you learned about the career (including what you expected or unexpected)

Career Research #3: _____

Name: _____

K—list what you already know about the career—this is what you want to verify or prove that you were right in your assumptions about the career

W—list what you want to learn about the career—this is what you want to research

L—write about what you learned about the career (including what you expected or unexpected)
